Number line</li> <li>• read, write, order and compare numbers with up to two decimal places (or 3 in measures)</li> <li>• round decimals with one decimal place to the nearest whole number</li> <li>• add and subtract fractions with the same denominator beyond one whole, and convert to a mixed number</li> <li>• solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number</li> <li>• solve simple measure and money problems involving fractions and decimals to two decimal places.(3 with measures).</li> </ul>

# Pentagon Partnership Year 4 Overview

	<p>value of the digits in the answer as ones, tenths and hundredths</p> <ul style="list-style-type: none"> <li>• Sharing and division link</li> <li>• Complements of 1 to 1 and 2 dp. E.g. <math>0.8 + 0.2 = 1.0</math>, <math>0.83 + 0.17 = 1.00</math> etc</li> <li>• Find both unit and non-unit fractions of amnts. E.g. <math>\frac{3}{8}</math> of £24</li> <li>• .</li> </ul>	<ul style="list-style-type: none"> <li>• round decimals with one decimal place to the nearest whole number</li> <li>• add and subtract fractions with the same denominator beyond one whole, and convert to a mixed number</li> <li>• Sharing and division link</li> <li>• solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number</li> <li>• solve simple measure and money problems involving fractions and decimals to two decimal places.(3 with measures).</li> <li>• Pupils continue to practise adding and subtracting fractions with the same denominator, to become fluent through a variety of increasingly complex problems beyond one whole.</li> </ul>	<ul style="list-style-type: none"> <li>• Pupils continue to practise adding and subtracting fractions with the same denominator, to become fluent through a variety of increasingly complex problems beyond one whole.</li> </ul>
<b>Ratio and Proportion</b>			<ul style="list-style-type: none"> <li>• Solve problems involving similar shapes where the scale factor is known.</li> <li>• Solve simple problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts e.g. I use 3l red and 1l white tubs of paint to make 4l of pink. How many red paint tubs do I need for 12l of pink?</li> </ul>
<b>Measurement</b>	<ul style="list-style-type: none"> <li>• Convert between different units of measure [for example, kilometre to metre; hour to minute]</li> <li>• measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres</li> </ul>	<ul style="list-style-type: none"> <li>• estimate, compare and calculate different measures, including money in pounds and pence. ( Pupils build on their understanding of place value and decimal notation to record metric measures, including money)</li> </ul>	<ul style="list-style-type: none"> <li>• estimate, compare and calculate different measures, including money in pounds and pence ( Pupils build on their understanding of place value and decimal notation to record metric measures, including money)</li> </ul>

Pentagon Partnership Year 4 Overview

	<ul style="list-style-type: none"> <li>find the area of rectilinear shapes by counting squares- relate area to arrays and multiplication.</li> </ul>	<ul style="list-style-type: none"> <li>Order temperatures (positive and negative) using a number line</li> <li>read, write and convert time between analogue and digital 12- and 24-hour clocks</li> <li>solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.</li> </ul>	<ul style="list-style-type: none"> <li>Perimeter can be expressed algebraically as <math>2(a + b)</math> where <math>a</math> and <math>b</math> are the dimensions in the same unit.</li> </ul>
<b>Geometry (Properties of Shape)</b>	<ul style="list-style-type: none"> <li>identify and describe the properties of 2-D shapes, including the number of sides</li> <li>identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces</li> <li>Pupils draw lines and shapes using a straight edge</li> <li>Identify lines of symmetry in 2D shapes presented in different orientations</li> <li>Complete a simple symmetric figure with respect to a specific line of symmetry</li> </ul>	<ul style="list-style-type: none"> <li>Compare and classify geometric shapes including quadrilaterals and triangles based on their properties and sizes.</li> <li>Identify acute and obtuse angles and compare and order angles up to two right angles by size</li> <li>Compare and order angles in preparation for using a protractor and compare lengths and angles to decide if a polygon is regular or irregular.</li> </ul>	
<b>Geometry (Position and Direction)</b>			<ul style="list-style-type: none"> <li>describe positions on a 2-D grid as coordinates in the first quadrant</li> <li>describe movements between positions as translations of a given unit to the left/right and up/down</li> <li>plot specified points and draw sides to complete a given polygon. (Pupils draw a pair of axes in one quadrant, with equal scales and integer labels. They read, write and use pairs of coordinates, for example (2, 5), including using coordinate-plotting ICT tools.)</li> </ul>
<b>Statistics</b>	<ul style="list-style-type: none"> <li>interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs.</li> </ul>	<ul style="list-style-type: none"> <li>solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs.</li> </ul>	<ul style="list-style-type: none"> <li>Pupils begin to relate the graphical representation of data to recording change over time.( e.g. temperature)</li> </ul>

# Pentagon Partnership Year 4 Overview

		(Pupils understand and use a greater range of scales in their representations)	
<b>Algebra</b>	<ul style="list-style-type: none"> <li>Line graphs of linear sequences in context</li> <li>Simple formulae related to shape eg perimeter and area of squares and rectangles and compound shapes</li> <li>Balance puzzles with symbols</li> </ul>	<ul style="list-style-type: none"> <li>Generating a negative sequence beyond zero</li> <li></li> </ul>	<ul style="list-style-type: none"> <li>Use of the constant function on a calculator eg inputting x to find y</li> <li>Plotting sequences eg x tables in +ve quadrant</li> </ul>
