

Year 4 Take Home Tasks

Wild Water

Our take home tasks this term are focussing on the STEM subjects.
science, DT, maths, computing

Please complete at least one of the following take home tasks and bring this into school before Friday 16th June.

Remember it's okay to work with your family members to create your take home task.

Science

As scientists find out about different animal life cycles. Create a 3D model of the life cycle of a frog. For example, you could create a hanging mobile.

Design and Technology

As designers, design and make a soft fabric 3D Bog Baby.

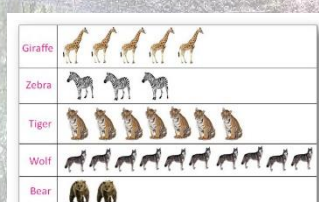

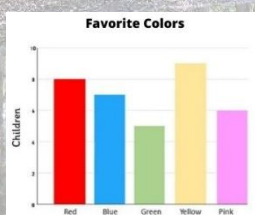

Use your basic stitching skills to make a 3D soft Bog Baby

Maths

As mathematicians collect data about the birds and wildlife that visit your garden.

Keep a tally of the types of wildlife that you see each day for a week and present the data in a bar graph.

Computing

As a digital presenter visit some rivers, ponds and canals that are in the local area.

Take your own photographs and use them to create a PowerPoint or create a video – recording/presentation about the rivers and canals in the local area.
